ePsolutions announces the first AMS prepaid solution for energy retailers in the Texas market: A.M.P.

AUSTIN, TX – January 26, 2010 – Today, ePsolutions, Inc., a leader in back office solutions for competitive energy resellers, announced the beta release of A.M.P. (Advanced Metering Products), the latest addition to their industry leading back office software solution, emPower. ePsolutions is proud to be first to market with a robust and comprehensive product offering for advanced meters, specifically tailored to the needs of retail electric providers in Texas who wish to add a prepaid offering to their existing product portfolio. An A.M.P beta with live market activity from selected customers is currently underway with premier retailers across the state, with general product availability expected before mid-year.

“ePsolutions has given us the ability to tap into one of the fastest growing market segments in retail energy” said Sam Holton, president and founder of Andeler Corporation. “We can now offer a product to the consumer who wants the ability to pay for energy as they go, without any requirement for deposits or estimates. The customer is able to base payment frequency and amounts around what is most convenient for him or her. I believe that AMP will truly revolutionize the way we do business.”

Steve Langerock, Chief Executive Officer at ePsolutions, stated “ePsolutions is delighted to announce the beta release of our A.M.P. solution for Texas retailers. Our software will now allow REPs of all sizes to offer their customers increased payment flexibility and dynamic rate plans that help them to save money and better manage their electricity usage.”

About Andeler, Inc.

Andeler was incorporated December 2001 and is committed to providing a reliable and competitively priced supply of electricity and related services to the Texas market. Their mission is to provide apartment communities and businesses with the most dependable utility services at the lowest rates. Andeler brings the power of electric deregulation to apartment communities and businesses in one very lucrative and creative package.

About ePsolutions, Inc.

ePsolutions delivers the industry’s most fully integrated, automated, and cost effective back office solution on the market for competitive energy resellers. Combining the comprehensive emPower software with a knowledgeable team of experts, ePsolutions helps resellers substantially lower operating costs and free up resources to support other aspects of the business. Founded in 2004, ePsolutions serves Texas clients. For more information, visit www.epsolutions.com.
