ePsolutions Supports Oncor's Advanced Metering Milestone Broadcast

AUSTIN, TX – July 9, 2009 – With the July 8th release of emPower 3.4, ePsolutions announces support for Oncor's May 28th Milestone broadcast regarding support of Advanced Metering and Advance Pay. ePsolutions is pleased to be the first to provide support for Oncor's new AMS identification system. ePsolutions' clients can now take advantage of the significant benefits and the reduced costs Oncor is offering associated with the new AMS metering system.

Steve Langerock, ePsolutions CEO states "ePsolutions remains committed to continuing as the market's premier provider of Advance Pay solutions. We will continue to address advances in the developing AMS market by merging best of breed Advance Pay technology already found within our emPower software offering with the new capabilities, rate plans and pricing models that advanced meters bring into play. This is an exciting time in the market; the new meters will allow electric consumers to take control of their consumption habits and begin to realize savings as systems are more fully deployed".

About Oncor Electric

Oncor is a regulated electric distribution and transmission business that uses superior asset management skills to provide reliable electricity delivery to consumers. Oncor operates the largest distribution and transmission system in Texas, delivering power to approximately 3 million homes and businesses and operating approximately 117,000 miles of distribution and transmission lines in Texas. While Oncor is owned by a limited number of investors (including majority owner, Energy Future Holdings corp.), Oncor is managed by its Board of Directors, which is comprised of a majority of independent directors.

About ePsolutions, Inc.

ePsolutions delivers the industry's most fully integrated, automated, and cost effective back office solution on the market for competitive energy resellers. Combining the comprehensive *emPower* software with a knowledgeable team of experts, ePsolutions helps resellers substantially lower operating costs and free up resources to support other aspects of the business. ePsolutions was founded in 2004 to meet the needs of Texas retail electric providers.
